

# Will you help this Majestic Bird?

"Shasta", a Red-Tailed Hawk, was the victim of an illegal shooting in the Shasta Mountain Range of California. Because her wing required partial amputation she can never be returned to the wild. Shasta found safe haven with us at **Wildlife Experience** and has since educated thousands of people about her majestic species and the laws that protect them.

Wildlife Experience, a local non-profit organization, provides life long quality care for over 30 non-releasable animals and provides crucially needed environmental awareness Nature Programs to our local community schools to foster a deeper appreciation for wildlife and the environment.

————— **Our work is possible thanks to the generosity of people like you!** —————

Please help these animals live healthy full lives as they inspire us to become responsible stewards of the earth's natural resources.

For over 10 years Wildlife Experience has been dedicated to wildlife conservation and connecting people to our natural world.
