Wildlife Experience

We Bring
the Wildlife
To YOU!

NATURE PROGRAMMING

ASSEMBLIES

(all programs are age appropriate and correlated to California Science Standards)

Wild Safari

Join a diversity of animals from around the world. Our journey will introduce you to their habitats, their unique adaptations and the intriguing cultures that surround them.

"It's a Rainforest THING"

Our most popular program introduces our worldwide tropical and temperate rainforests. We'll explore each layer of the rainforest, the animals that live in each layer, and all the important **things** the rainforest gives us like chocolate!

Native Neighbors

Wildlife is everywhere! Raccoon, Opossum, Hawk, Owl, Skunk and many other creatures live in our neighborhoods and share our living space. Learn how to enjoy and protect California's wild creatures around your home... and theirs!

3rd grade teachers are raving about this program which correlates with **Open Court Reading**.

WILD Nights

Discover the world of nocturnal animals. Meet animals that depend on the dark for their survival.

Other Programs

W.E. can design a specific program to suit your curriculum needs. Please do not hesitate to call us for more information.

IN CLASS SERIES

In Class Series programs enable students to learn about wildlife up-close and personal. Choose one of our In Class Series programs and Wildlife Experience will come to your classroom for a 40 minute presentation once a week for 5 weeks. Each week we will change topics and animals!

PROGRAMS INCLUDE

Animal Adaptations - Explores the natural ways animals adapt to their environment to ensure their survival. Topics include: Camouflage, Eyesight, Dentition, Movement, and Defense.

Ecology - Introduces students to the general concepts of ecology and highlights the energy cycle of life. Topics include: Investigating Wildlife, Habitats, Food Chains, Food Webs, and Ecosystems. (For grades 3 and up)

Native Neighbors - This Series correlates great with Open Court Reading. Designed to help students identify and understand the local wildlife in their area. Topics include: Nocturnal Animals, Animal Tracks, Super Senses, Creepy Crawlies and Living with Wildlife.

Vertebrates - acquaints students with an overview of the animal kingdom and explores those animals which have vertebrae (backbones). Topics include: Fish, Amphibians, Reptiles, Birds, and Mammals.

Also available: Invertebrates, Biomes, Careers with Animals or we can create a series specifically for your classroom.

WILDLIFE SHOWS

Designed for large audiences for special events our **Wildlife Shows** are full of education and entertainment! Animals demonstrate their natural behaviors in a show that encourages people to respect wildlife and become responsible stewards of the earth's natural resources. Fun for all ages! Call us for a DVD, reference list and quote today.

PROGRAM FEES

First Assembly* \$295.00

Each Additional Assembly..... \$250.00
(if on same day)

**Programs are for groups of up to 100 people
Please inquire about fees for larger groups*

In Class Series Programs \$450.00
(minimum 3 separate series per school)

Wildlife Experience is a 501 (c) (3) non-profit organization #77-0539107. We are fully insured and licensed by USDA, CA Fish and Game and US Fish & Wildlife Service

Wildlife Experience is a 501 (c) (3) nonprofit organization dedicated to wildlife conservation through community education. With the implementation of unique nature programs, Wildlife Experience aims to conserve wildlife and the habitats in which they live.

Wildlife Experience has discovered that children who have an opportunity to see the animals they are learning about have an increase in their cognitive learning ability. Seeing animals up close also increases affective learning and

fosters a deeper appreciation for wildlife. Through live animal presentations, W.E. strives to encourage children and adults to take responsible action concerning wildlife and the environment.
